

### Overview

#### HPE Synergy 50Gb Interconnect Link Module

The HPE Synergy 50Gb Interconnect Link Module, satellite module, is designed for Composable Infrastructure. Based on disaggregated, rack-scale design, it uses a primary/satellite architecture to consolidate data center network connections, reduce hardware and scale network bandwidth across multiple HPE Synergy Frames. This module extends HPE composable fabric up to four additional satellite frames with 25/50Gb connectivity to Synergy Compute Modules and replaces a fixed ratio of interconnects in each frame by extending the fluid pool of network resources.

The primary module contains intelligent networking capabilities that extend connectivity to frames equipped with satellite modules. This reduces the need for top of rack switches and substantially decreases cost. The reduction in components simplifies fabric management at scale while consuming fewer ports at the data center aggregation layer.

### Standard Features

### Product Features

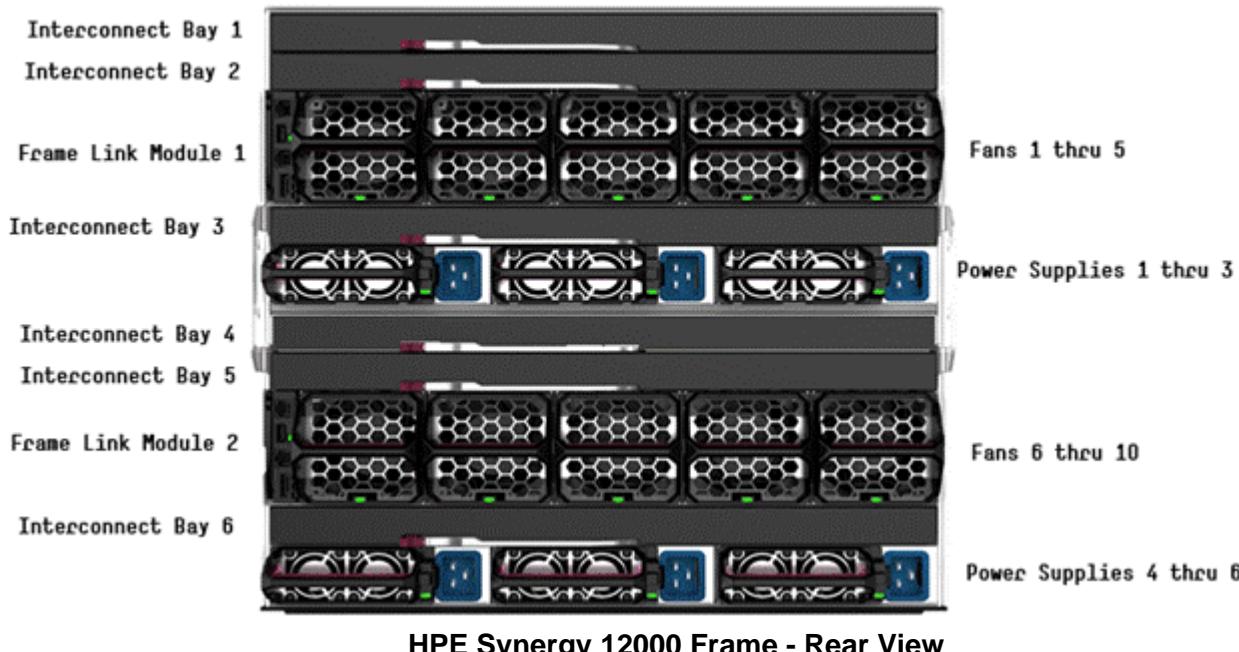

#### Performance

- 12 x 25Gb or 12 x 50Gb (2 lanes of 25Gb) Ethernet downlinks (traversing the midplane) to compute module Converged Network Adapters
- The FlexHBA can be configured to transport either Fiber Channel over Ethernet/CEE or Accelerated iSCSI protocol.
- Each FlexNIC and FlexHBA is recognized by the compute module as a PCIe physical function device with adjustable speeds from 250Mb to 25Gb in 250Mb increments when connected to a 2-port Converged Network Adapter or any Flex-25/50 NIC and from 500Mb to 50Gb in 500Mb increments when connected to a Dual-Port 25/50Gb Converged Network Adapter

#### Management

- Integrated composer based HPE OneView included with every frame, providing out-of-the-box Virtual Connect configuration and management.
- Pre-configure compute modules I/O configurations prior to their installation for easy deployment
- Move, add, or change compute module network connections on the fly without impacting LAN and SAN administrator
- Provisioned storage resource is associated directly to a specific virtual machine - even if the virtual server is re-allocated within a frame
- Compute module-side NPIV removes storage management constraint of a single physical HBA on a compute module does not add to SAN switch domains or require traditional SAN management
- Licensing support for native Fibre Channel through Composer powered by OneView

### Supported Configurations

### Standard Features

### Service and Support

#### HPE Services

No matter where you are in your digital transformation journey, you can count on HPE Services to deliver the expertise you need when, where and how you need it. From planning to deployment, ongoing operations and beyond, our experts can help you realize your digital ambitions.

<https://www.hpe.com/services>

---

#### Consulting Services

No matter where you are in your journey to hybrid cloud, experts can help you map out your next steps. From determining what workloads should live where, to handling governance and compliance, to managing costs, our experts can help you optimize your operations.

<https://www.hpe.com/services/consulting>

---

#### HPE Managed Services

HPE runs your IT operations, providing services that monitor, operate, and optimize your infrastructure and applications, delivered consistently and globally to give you unified control and let you focus on innovation.

[HPE Managed Services | HPE](https://www.hpe.com/services/managed)

---

#### Operational services

Optimize your entire IT environment and drive innovation. Manage day-to-day IT operational tasks while freeing up valuable time and resources. Meet service-level targets and business objectives with features designed to drive better business outcomes.

<https://www.hpe.com/services/operational>

---

#### HPE Complete Care Service

HPE Complete Care Service is a modular, edge-to-cloud IT environment service designed to help optimize your entire IT environment and achieve agreed upon IT outcomes and business goals through a personalized experience. All delivered by an assigned team of HPE Services experts. HPE Complete Care Service provides:

- A complete coverage approach -- edge to cloud
- An assigned HPE team
- Modular and fully personalized engagement
- Enhanced Incident Management experience with priority access
- Digitally enabled and AI driven customer experience

<https://www.hpe.com/services/completestore>

---

#### HPE Tech Care Service

HPE Tech Care Service is the operational support service experience for HPE products. The service goes beyond traditional support by providing access to product specific experts, an AI driven digital experience, and general technical guidance to not only reduce risk but constantly search for ways to do things better. HPE Tech Care Service delivers a customer-centric, AI driven, and digitally enabled customer experience to move your business forward. HPE Tech Care Service is available in three response levels. Basic, which provides 9x5 business hour availability and a 2-hour response time. Essential which provides a 15-minute response time 24x7 for most enterprise level customers, and Critical which includes a 6-hour repair commitment where available and outage management response for severity 1 incidents.

<https://www.hpe.com/services/techcare>

### Service and Support

#### HPE Lifecycle Services

HPE Lifecycle Services provide a variety of options to help maintain your HPE systems and solutions at all stages of the product lifecycle. A few popular examples include:

- Lifecycle Install and Startup Services: Various levels for physical installation and power on, remote access setup, installation and startup, and enhanced installation services with the operating system.
- HPE Firmware Update Analysis Service: Recommendations for firmware revision levels for selected HPE products, taking into account the relevant revision dependencies within your IT environment.
- HPE Firmware Update Implementation Service: Implementation of firmware updates for selected HPE server, storage, and solution products, taking into account the relevant revision dependencies within your IT environment.
- Implementation assistance services: Highly trained technical service specialists to assist you with a variety of activities, ranging from design, implementation, and platform deployment to consolidation, migration, project management, and onsite technical forums.
- HPE Service Credits: Access to prepaid services for flexibility to choose from a variety of specialized service activities, including assessments, performance maintenance reviews, firmware management, professional services, and operational best practices.

**Notes:** To review the list of Lifecycle Services available for your product go to:

<https://www.hpe.com/services/lifecycle>

For a list of the most frequently purchased services using service credits, see the [HPE Service Credits Menu](#)

#### Other Related Services from HPE Services:

##### HPE Education Services

Training and certification designed for IT and business professionals across all industries. Broad catalogue of course offerings to expand skills and proficiencies in topics ranging from cloud and cybersecurity to AI and DevOps. Create learning paths to expand proficiency in a specific subject. Schedule training in a way that works best for your business with flexible continuous learning options.

<https://www.hpe.com/services/training>

##### Defective Media Retention

An option available with HPE Complete Care Service and HPE Tech Care Service and applies only to Disk or eligible SSD/Flash Drives replaced by HPE due to malfunction.

Consult your HPE Sales Representative or Authorized Channel Partner of choice for any additional questions and services options.

##### Parts and Materials

HPE will provide HPE-supported replacement parts and materials necessary to maintain the covered hardware product in operating condition, including parts and materials for available and recommended engineering improvements.

Parts and components that have reached their maximum supported lifetime and/or the maximum usage limitations as set forth in the manufacturer's operating manual, product quick-specs, or the technical product data sheet will not be provided, repaired, or replaced as part of these services.

##### How to Purchase Services

Services are sold by Hewlett Packard Enterprise and Hewlett Packard Enterprise Authorized Service Partners:

- Services for customers purchasing from HPE or an enterprise reseller are quoted using HPE order configuration tools.
- Customers purchasing from a commercial reseller can find services at <https://ssc.hpe.com/portal/site/ssc/>

### Service and Support

#### AI Powered and Digitally Enabled Support Experience

Achieve faster time to resolution with access to product-specific resources and expertise through a digital and data driven customer experience

Sign into the HPE Support Center experience, featuring streamlined self-serve case creation and management capabilities with inline knowledge recommendations. You will also find personalized task alerts and powerful troubleshooting support through an intelligent virtual agent with seamless transition when needed to a live support agent.

### Consume IT On Your Terms

**HPE GreenLake** edge-to-cloud platform brings the cloud experience directly to your apps and data wherever they are—the edge, colocations, or your data center. It delivers cloud services for on-premises IT infrastructure specifically tailored to your most demanding workloads. With a pay-per-use, scalable, point-and-click self-service experience that is managed for you, HPE GreenLake edge-to-cloud platform accelerates digital transformation in a distributed, edge-to-cloud world.

- Get faster time to market
- Save on TCO, align costs to business
- Scale quickly, meet unpredictable demand
- Simplify IT operations across your data centers and clouds

To learn more about HPE Services, please contact your Hewlett Packard Enterprise sales representative or Hewlett Packard Enterprise Authorized Channel Partner. Contact information for a representative in your area can be found at "Contact HPE" <https://www.hpe.com/us/en/contact-hpe.html>

### Configuration Information

#### Models

Spare Part Numbers	SKU Description	Orderable SKU Number
879437-001	HPE Synergy 50Gb Interconnect Link Module	867793-B2
P57815-001	HPE Synergy 50Gb TAA-compliant Interconnect Link Module	867793-B2

#### Notes:

- All SKUs of the HPE Synergy 50Gb Interconnect Link Module are functionally equivalent to each other and operate and behave as expected on all versions of HPE OneView for Synergy until it is time for a firmware upgrade. To update firmware on Spare Part Numbers P57815-001 and P57838-001 you must have HPE OneView for Synergy version 6.60.01 or HPE OneView for Synergy version 7.2 or later.
- HPE Synergy 50Gb Interconnect Link Modules with different Spare Part Numbers can operate together within the same environment. An upgrade is not required for this support. To differentiate between the new and old HPE Synergy 50Gb Interconnect Link Modules, refer to the spare part number on the module or firmware version on each module. Spare Part Numbers P57815-001 and P57838-001 will contain the 2.x firmware and the Spare Part Numbers 879437-001 and P02747-001 will contain the 1.x firmware.
- For future firmware updates:
  - o 1. To determine if you have an old or new HPE Synergy 50Gb Interconnect Link Module:
    - a. Use HPE OneView to check the firmware version or spare part number of the module. **IMPORTANT:** Because the new interconnect link module's firmware version is unknown to existing SSP releases, HPE OneView for Synergy displays a message that the firmware does not match the baseline version and provides a resolution to update the firmware. Disregard this resolution as this firmware difference from baseline is expected. See the [HPE OneView for Synergy User Guide](#) ([Document - HPE OneView for HPE Synergy Firmware and Driver Update Guide | HPE Support](#) for information on identifying firmware versions and spare part numbers).
    - b. Look on the outside of the module for the spare part number.
  - o 2. Check the HPE OneView for Synergy version number. If you are not running HPE OneView for Synergy version 6.60.01 or 7.2 or later, update the software. See the [HPE OneView for Synergy User Guide](#) ([Document - HPE OneView for HPE Synergy Firmware and Driver Update Guide | HPE Support](#) for details on updating the software and the [HPE Synergy Software Release Information](#) pages for the latest release information ([Document - HPE OneView for HPE Synergy Firmware and Driver Update Guide | HPE Support](#))
  - o 3. Update the firmware on the interconnect link module. See the [HPE OneView for Synergy User Guide](#) ([Document - HPE OneView for HPE Synergy Firmware and Driver Update Guide | HPE Support](#) for details on updating the firmware)

#### Compatibility

HPE Synergy 50Gb Interconnect Link Module interoperates with the following HPE Synergy hardware housed in the Synergy Frames.

### Configuration Information

#### HPE Synergy Compute Modules

HPE Synergy 480 Gen10 Configure-to-order Compute Module	871940-B2
HPE Synergy 480 Gen10 TAA-compliant Configure-to-order Compute Module	871940-B2
HPE Synergy 480 Gen10 Configure-to-order without Drive Bays Compute Module	871941-B2
HPE Synergy 480 Gen10 TAA-compliant Configure-to-order without Drive Bays Compute Module	871941-B2
HPE Synergy 480 Gen10 Configure-to-order Premium Compute Module	871942-B2
HPE Synergy 480 Gen10 TAA-compliant Configure-to-order Premium Compute Module	871942-B2
HPE Synergy 660 Gen10 Configure-to-order Compute Module	871929-B2
HPE Synergy 660 Gen10 TAA-compliant Configure-to-order Compute Module	871929-B2
HPE Synergy 660 Gen10 Configure-to-order without Drive Bays Compute Module	871930-B2
HPE Synergy 660 Gen10 TAA-compliant Configure-to-order without Drive Bays Compute Module	871930-B2
HPE Synergy 660 Gen10 Configure-to-order Premium Backplane Compute Module	871931-B2
HPE Synergy 660 Gen10 TAA-compliant Configure-to-order Premium Backplane Compute Module	871931-B2
HPE Synergy 480 Gen10 Plus Base Chassis Configure-to-order Compute Module	P22139-B2
HPE Synergy 480 Gen10 Plus Base Chassis TAA-compliant Configure-to-order Compute Module	P22139-B2
HPE Synergy 480 Gen11 Configure-to-order Compute Module	P39531-B2
HPE Synergy 480 Gen11 TAA-compliant Configure-to-order Compute Module	P39531-B2

#### HPE Virtual Connect Module

HPE Virtual Connect SE 100Gb F32 Module for Synergy	867796-B2
HPE Virtual Connect SE 100Gb F32 TAA-compliant Module for Synergy	867796-B2

#### HPE Network Adapters

HPE Synergy 4820C 10/20/25Gb Converged Network Adapter	876449-B2
HPE Synergy 6820C 25/50Gb Converged Network Adapter	P02054-B2

#### CXP28 Cables

HPE Synergy 300Gb Interconnect Link 2.1m Direct Attach Copper Cable	876680-B2
---	-----------

The following 3 SKUs all comply with the Low Smoke Zero Halogen (LSZH) standard and refer to the behavior of chemical compounds when combusted - specifically the quantity of smoke generated and the toxicity of the emissions.

HPE Synergy 300Gb Interconnect Link 3m Active Optical Cable	876689-B2
HPE Synergy 300Gb Interconnect Link 5m Active Optical Cable	876692-B2
HPE Synergy 300Gb Interconnect Link 15m Active Optical Cable	876692-B2

The following 3 SKUs are all Plenum-Rated referring to its special insulation that has low smoke and low flame characteristics.

HPE Synergy 300Gb Interconnect Link 3m Plenum Rated Active Optical Cable	P64635-B2
HPE Synergy 300Gb Interconnect Link 5m Plenum Rated Active Optical Cable	P64638-B2
HPE Synergy 300Gb Interconnect Link 15m Plenum Rated Active Optical Cable	P64641-B2

#### Notes:

- Mixing LSZH and Plenum-Rated cables in the same Logical Enclosure (LE) is not supported.
- Since the Plenum-Rated cables are newer, they require a minimum version of OneView and a minimum firmware version on the modules that they are connecting --- VC 100Gb F32 Switch module and the 50G ICM Satellite module.

### Configuration Information

- o OneView version must be OV 9.0 or higher
- o VC 100Gb F32 Switch must have firmware of 2.7.0 or higher
- o 50Gb ICM Satellite that has Spare Part Number 879437-001 or P02747-001 must have firmware of 1.2.1.0 or higher
- o 50Gb ICM Satellite that has Spare Part Number P57815-001 or P57838-001 must have firmware of 2.0.2.0 or higher
- o The firmware versions for the VC 100Gb F32 Switch and the 50Gb ICM Satellite modules are part of the SSP SY2024.07.01

**Warning:** If non-supported firmware is used with Plenum cables, creation of the Logical Enclosure will fail. Customers must upgrade all firmware on connecting modules before installing the Plenum-Rated cables. Ensure that OneView and the modules that these cables are connecting have supported firmware before starting any replacement or growth operations with Plenum-Rated cables. Check the HPE OneView for Synergy version number. If you are not running HPE OneView for Synergy version 9.0 or later, update the software. See the [HPE OneView for Synergy User Guide Document - HPE OneView for HPE Synergy Firmware and Driver Update Guide | HPE Support](#) for details on updating the software. Update the firmware on the connecting modules. See the [HPE OneView for Synergy User Guide Document - HPE OneView for HPE Synergy Firmware and Driver Update Guide | HPE Support](#) for details on updating the firmware.

- ICES (Canada)
- VCCI (Japan)
- RCM (Australia/NZ)
- KCC (Korea)
- BSMI (Taiwan)

### Environment-friendly Products and Approach - End-of-life Management and Recycling

Hewlett Packard Enterprise offers end-of-life Hewlett Packard Enterprise product return, trade-in, and recycling programs in many geographic areas. For trade-in information, please go to: <http://www.hpe.com/info/recycle>. To recycle your product, please go to: <http://www.hpe.com/info/recycle> or contact your nearest Hewlett Packard Enterprise sales office. Products returned to Hewlett Packard Enterprise will be recycled, recovered or disposed of in a responsible manner.

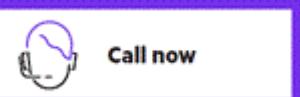

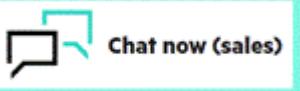

The EU WEEE directive (2002/95/EC) requires manufacturers to provide treatment information for each product type for use by treatment facilities. This information (product disassembly instructions) is posted on the Hewlett Packard Enterprise web site at: <http://www.hpe.com/info/recycle>. These instructions may be used by recyclers and other WEEE treatment facilities as well as Hewlett Packard Enterprise OEM customers who integrate and re-sell Hewlett Packard Enterprise equipment.

### Summary of Changes
